

# HISTO-PATHOLOGY SERVICES

One stop solutions from wet tissue to digital archiving and analysis

**Histology and Pathology** are essential work-flows in biomarker discovery, translational research, drug development, and diagnostic test development. **Acepix Histo-pathology Services** are one-stop solutions from wet tissues to digital archiving and analysis to fulfill the needs of all applications.

Highest Quality  Comprehensive  
 Economical  Fast Turnaround

## Basic Histology Services

- **FFPE processing**  
 Grossing and cassetting  
 Processing and embedding  
 TMA construction  
 FFPE sectioning
- **Cryo (OCT) processing**  
 Cryo-embedding  
 Cryo-sectioning

## Staining Services

- **Histology staining**  
 H&E  
 Special stain  
 TUNEL
- **Advanced staining**  
 Immunohistochemistry (IHC)  
 In situ hybridization (ISH)  
 Automated staining

## Digital Pathology Services

- **Digital archiving**  
 40X whole slide scan  
 Extended focus  
 100% QC for maximum quality
- **Digital image analysis**  
 Routine analysis of IHC and special staining  
 Custom algorithm development

## Pathology Services

- **Pathologist review**  
 Review by Board certified pathologists  
 Pathology report
